

*How to inspire a
journey while your eyes
are closed?*

DATE 2010

MEDIUM Joysticks, computer, headphones

SOFTWARE Arduino, AS3

AUTHORS & DEVELOPMENT Tobias Muthesius & Pierre Thirion,
Lab212

SYNOPSIS A blind walk through a sonic landscape. The user covers his eyes with a mask, and put earphones. Using a joystick, he walks through a giant sonic landscape made of different atmospheres. These sounds are freely inspired by the book *Petit Bain* by Catherine Lenoble.
